PRESIDENT’S BREAKFAST
Thursday, April 14, 2016
From 7:30 a.m. to 9:00 a.m.
At The Ottawa Conference and Event Centre
200 Coventry Road
Ottawa, Ontario

WHAT IS PRESIDENT’S BREAKFAST?
The President’s Breakfast is a fundraising event in support of the Montfort Hospital Foundation fundraising campaigns and priorities. This year, all proceeds raised will be in support of the "For You, My Sweet Heart Fundraising Campaign" to acquire a CT Scanner with Specialized Cardiac Module. The President’s Breakfast also provides the opportunity for guests to learn more about Dr. Bernard Leduc’s vision for the Montfort Hospital and to be inspired and invited to make a donation. The President’s Breakfast is hosted by the Montfort Hospital Foundation.

WHO IS THE MONTFORT HOSPITAL TODAY?
The Montfort Hospital is a Francophone Academic Health Care Institution that provides quality care in both official languages and works with its partners to improve the health of communities. The hospital plays a key role in providing healthcare for communities in eastern Ottawa and all of Eastern Ontario.

WELL PREPARED TO SERVE OUR COMMUNITY
The past decade has seen a complete transformation at our hospital: major expansion project has doubled physical space at our Montreal Road campus; complete renovations of traditional core buildings, and the installation of state of
the art technology and equipment has now created one of the largest health care centres in Ontario.

MEETING THE NEEDS OF OUR COMMUNITY

The hospital has a capacity of 273 acute care beds, 128 beds in its Long Term Care Centre and 26 beds in the Ottawa Withdrawal Management Centre:

- Family Birthing Centre: 27
- Intensive Care: 12
- Medical and Surgical: 35
- Medicine 90:
- Mental Health: 48
- Mental Health: 48 (40 short term including 8 intensive care)
- Neonatal: 27 level I and 4 level II
- Rehabilitation: 21
- Surgery: 40

PROGRAMS AND SERVICES

AMBULATORY CARE

DEPARTMENTS

Emergency – Endoscopy (Cronchoscopy, Colonoscopy, Cystoscopy, Esophagastroduodenoscopy) – Family Birthing Centre – Geriatric-In Patient –

• 464 Registered Nurses
• 48 Beds in the Mental Health Program
• 52,090 Examinations in Medical Radiology
• 59,000 Emergency Department Visits
• 90,220 Hospitalization Days – 15,699 Hospitalizations
• Neonatal Service Level 2 equipped with 4 cribs
• Total of 750,000 square feet of space

BREAST CANCER PROGRAM
• 1,460 Breast Ultrasounds
• 13 Breast Biopsies Guided by MRI
• 193 Breast Biopsies Guided by Ultrasound
• 285 Breast MRI
• 4,315 Mammograms
• 4,390 Mammogram Procedures through the OBSP (Ontario Breast Screening Program)

ACHIEVEMENTS
• Best Practice Spotlight Organization (BPSO) by the Registered Nurses Association of Ontario (RNAO)
• Cardiac Telehealth Service and Best Practices in Care of Heart Disease
• Infection Rate Reduction (Hand Hygiene)
• Breast Disease Program
• Cardiovascular and Pulmonary Services
• Patient Flow Improvement (LEAN Methodology)
• Personalized Smoking Cessation Program
• Sigmoidoscopy performed by RN
• Quality Improvement Plan (QIP)
• Wait-time Reduction
• Designation as a Group A Academic Teaching Hospital by the Government of Ontario
ACADEMIC MISSION

- 23,264 Professional training days (PED), which represents 1,069 trainees:
- 38 Teaching Affiliations in 50 programs and 64 disciplines
  - Administrative = 3,693 PED
  - Health Care Professionals = 9,862 PED
  - Nursing = 9,709 PED

- A key partnership with the University of Ottawa
- Residency in Family Medicine
- Residency in Internal Medicine
- Residency in Obstetrics and Gynecology
- Residency in Psychiatry
- Simulation Lab

In March 2015, the Montfort Hospital founded the Institut du savoir Montfort, an institute dedicated to creating and transmitting knowledge to improve patient care, support to loved ones and the health of Ontario communities. This new institution operates three centres devoted to the development of new knowledge:

The Institut de recherche de l’Hôpital Montfort leads collaborative research projects on the organization of services, prevention, detection and treatment of physical and mental comorbidities;

The Centre de développement professionnel continu Prométhée offers a full range of training activities for health professionals, including physicians and nurses, administrators and others working in the field; its simulation program has been accredited by the Royal College of Physicians and Surgeons of Canada;
The **Department of Education** not only develops, coordinates and supports practical placements in French in various health fields at The Montfort Hospital, it is also helping the Hospital realize its mandate to become a Centre of excellence in health sciences education in French for all of Ontario.

The combination of these three activity sectors makes the Institut du savoir Montfort a unique organization in Canada that brings together researchers, educators and clinicians, along with students, residents and even patients, with the goal of implementing research results in care facilities as quickly as possible, for the benefit of all. This places the Institute in a key position to help the hospital realize its university mandate.

**HOW COMMUNITY SUPPORT IMPACTS MONTFORT HOSPITAL:**

The government provides for the basic standard of care in all hospitals; but we strive to provide the very best care and community support provides that margin of excellence for the benefit of our patients, their families, our healthcare providers and our entire community.

- The best equipment in the most capable hands provides the highest quality patient care and the most positive outcomes;
- The most modern facility reduces infection rates, enhances comfort and the environment for patients;
- Maintaining state of the art equipment allows us to provide the best possible diagnosis, surgical intervention and treatment for our patients;
- Community support for equipment, education, professional development and research all contribute to enhanced patient care;
- Support for our teaching and research mission provides us with the means to advance the practice of medicine in ways that directly benefit our patients.
WHAT IS A TABLE CAPTAIN AT THE PRESIDENT’S BREAKFAST?
A Table Captain is a leader who agrees to help inspire community support for the Montfort Hospital by filling a table at the President’s Breakfast.

WHAT ARE MY SPECIFIC RESPONSABILITIES?
- We ask that you host 7 guests at your table.
- Ensure your guests know that the President’s Breakfast is a fundraising event and they will be asked to make a donation. We never want anyone to be surprised about being asked to donate.
- Once a guest has accepted your invitation to attend, let us know by phone at 613-748-4920 or by email - lawrence@greensponbrown.ca or csigouin@montfort.on.ca.

WHO SHOULD I INVITE?
Consider recruiting guests that you believe have an interest in learning more about the Montfort Hospital and who may have the capacity to make a gift of $1,000 or more annually. Guests will be asked to consider making a donation at this level.

Each guest’s decision to donate will remain confidential, but it is important that guest knows in advance that they will be asked to make a gift. Donations of any amount are very much appreciated.

AM I RESPONSIBLE FOR ASKING FOR DONATIONS?
No, you are not asked to solicit funds from guests. This is a fundraising event and your role is to recruit guests who have an interest and potential capacity to support the “For You, My Sweet Heart Fundraising Campaign”. The “ask” will be built into the program and delivered during the Breakfast Program.
EVENT AT-A-GLANCE

7:00 a.m.    Table Captains greet their guests

7:30 a.m.    Welcoming remarks (Masters of Ceremony: Christine Sigouin, President & CEO, Montfort Hospital Foundation and Matt Skube, Bell Media)
